New power.  
DC power.

# Presentations on DC technology | Hall 11, Stand C40/1

**Monday, April 22**

1.30 – 2.00 pm

**New Era. New Power.**

DC technology as an enabler of a successful energy transition

**Guido Bachmann**

Director R&D Electronics & Software

3.30 – 4.00 pm

**Plug in. Power up.**

The new C303 industrial DC-contactor for unmatched performance

**Luigi Cristiano**

Director Segment Energy

**Tuesday, April 23**

10.00 – 10.30 am

**Plug in. Power up.**

The new C303 industrial DC-contactor for unmatched performance

**Luigi Cristiano**

Director Segment Energy

11.30 – 12.00 am

**NExT Factory**

The world's first DC factory as a role model for green production

**Guido Bachmann**

Director R&D Electronics & Software

3.00 – 3.30 pm

**Smart. Fast. Safe.**

Intelligent switches for tomorrow's DC world

**Guido Bachmann**

Director R&D Electronics & Software

**Wednesday, April 24**

11.00 – 11.30 am

**Smart. Fast. Safe.**

Intelligent switches for tomorrow's DC world

**Guido Bachmann**

Director R&D Electronics & Software

1.00 – 1.30 pm

**Small contactor, big effect**

Bidirectional DC contactors as the building block for the charging of the future

**Luigi Cristiano**

Director Segment Energy

**Thursday, April 25**

10.00 – 10.30 am

**NExT Factory**

The world's first DC factory as a role model for green production

**Christoph Neulinger**

Manager Operations

11.30 – 12.00 am

**Why energy storage needs special contactors**

Advantages of DC contactors in a BESS system

**Pavel Tomashev**

Application Engineer

3.00 – 3.30 pm

**Smart. Fast. Safe.**

Intelligent switches for tomorrow's DC world

**Christian Hoyer**

Development Electrical Engineering

**Friday, April 26**

11.00 – 11.30 am

**Smart. Fast. Safe.**

Intelligent switches for tomorrow's DC world

**Christian Hoyer**

Development Electrical Engineering
